Why Trade Foreign Exchange

Foreign exchange is the world's largest financial market, and has been available to retail traders since 1999. This new and exciting global market offers opportunities unavailable in other categories.

WHY FOREX IS THE IDEAL ASSET CLASS

24-hour market

Trade on your own schedule, 24 hours a day, during normal market hours whenever the markets are open (Sunday 16:00 to Friday 16:30 Eastern Time)

Low transaction costs

No commissions on trades[†]

High leverage

Up to 400:1 - much higher than equities and futures trading allows^{††}

Market volume helps facilitate price stability

With an average turnover of \$3.2 trillion per day, Forex is the most traded market in the world

(Source: Bank for International Settlements, September 2007)

Start trading Forex today with our GTS platform. Our technologically enhanced platform contains many features and professional tools designed to heighten your overall trading experience.

[Sign up for a practice account](#)

We'll give you \$10,000 in practice funds to hone your skills as a Forex trader.

[†]FX Solutions is compensated through a portion of the bid / ask spread.

^{††}FX Solutions asks that you consider the risks associated with increasing your leverage. A relatively small market movement will have a proportionately larger impact on the funds you have deposited or will have to deposit; this may work against you as well as for you. You may sustain a total loss of initial margin and you may be required to deposit additional funds to cover a short margin position. Flexible leverage is available for self-traded accounts only (does not apply to managed accounts).
